* Additional return of capital (ROC) distributions were made in these funds throughout 2017.

** Additional income distributions were made (quarterly) in 2017.

Distributions for all funds based on the NAV at December 31, 2017.

¹ Income Distributions represent income and capital gains that were actually earned by the fund or portfolio over the course of the year and distributed to the unit holders.

² These amounts are paid as a Return of Capital (ROC) only and do not represent income or capital gain to the unit holder. Instead, they are tax reported as reductions in the Adjusted Cost Base (ACB) of the unit holder's interest in the fund."

Empire Life Investments Inc. is the Manager of the Empire Life Emblem Portfolios and Empire Life Mutual Funds (the "Portfolios" or "Funds"). The units of the Portfolios and Funds are available only in those to sell such units. Jurisdictions where they may be lawfully offered for sale and therein only by persons permitted.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. The payment of distributions is not guaranteed and may fluctuate. The payment of distributions should not be confused with a fund's performance, rate of return or yield. If distributions paid by the fund are greater than the performance of the fund, your original investment will shrink. Distributions paid as a result of capital gains realized by a fund, and income and dividends earned by a fund are taxable in your hands in the year they are paid. Your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base goes below zero, you will have to pay capital gains tax on the amount below zero. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.
